Subject: Second Proposed SWMG and SW Rule

Rebecca and Brian,

I had a chance to finish reviewing the latest version of the stormwater rule and guidebook this morning. I/Contech have no additional comments, but I just wanted to take a second to thank you both and everyone else that was undoubtedly involved for all the work you did in considering feedback and making updates to these important documents. I look forward to seeing the final documents rolled out.

Thanks,
Derek

Derek M. Berg, CPSWQ
