W 000	INITIAL COMMENTS  A recertification survey was conducted from April 17, 2007 through April 19, 2006. The survey was initiated using the fundamental survey process. A sample of three clients was selected from a resident population of six men with various disabilities. One of the six men that resided in the facility was in the hospital at the time of the survey. He was added for a focused review.  The findings of the survey were based on home and two day program observations, interviews with clients (2), legal guardians, staff and consultants and well as a review of medical, habilitation and administration records, including incident reports.	W 000		
W 112	483.410(c)(2) CLIENT RECORDS  The facility must keep confidential all information contained in the clients' records, regardless of the form or storage method of the records.  This STANDARD is not met as evidenced by. Based on observation and staff interview, the facility failed to keep confidential all information contained in each client's record, for six of the six clients residing in the facility. (Clients #1, #2, #3, #4, #5 and #6)  The findings include:  1. On April 17, 2006, at approximately 8:10 AM, Clients #1, #2, #3, #4, #5, and #6's habilitation records, which include personal and sensitive information were stored on shelves located in a common area (vestibule) of the facility.  Interview with the Qualified Mental Retardation	W 112	W 112 The Agency has implemented a system to ensure that all client records and pertaining information is secured and kept confidential. In the future the Agency will ensure that client records are kept secured in a locked cabinet and made accessible to authorized personnel only. Client's diet orders will be placed in the front of the Menu Books.	5/8/07

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, if a findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 112	Continued From page 1 Professional (QMRP) at 5:30 PM revealed that this was the standard method and location for storing the client records. The facility failed to store confidential records in an area where visitors and unauthorized personnel could not have easy access.  2. On April 17, 2006, at 5:05 PM, the client's diets were observed posted on the facility's bulletin board. On April 18, 2007 at 2:50 PM, Client #2's weights were observed posted on a bulletin board in the facility's basement.  The facility failed to implement a system that ensures confidentiality of the clients' personal information.	W 112		
W 114	<b>483.410(c)(4) CLIENT RECORDS</b>  Any individual who makes an entry in a client's record must make it legibly, date it, and sign it.  This STANDARD is not met as evidenced by: Based on interview and record review, the facility failed to ensure that each client's records were dated for one of six clients residing in the facility. (Client #6)  The finding includes:  Interview with Qualified Mental Retardation Professional (QMRP) and review of the agency's Unusual Incident Log was conducted on April 17, 2007 at 9:01 AM. An incident report dated August 25, 2006 revealed that Client #6 picked his left fore arm below his elbow. Another incident dated September 19, 2006 revealed that facility's door slammed in Client #6's face.	W 114	W 114 The Agency has revised the Incident Management Policy and Procedure to ensure that there are - weekly incident reviews - monthly incident reviews at HRC meetings - quarterly incident trending reports  The Incident report has been revised to include date and time of notification of administrator. W 124	Continued From page 5 interview with the QMRP on April 18, 2007 revealed Client #2's mother was his legal guardian. This information was verified by the review of Client #2's habilitation record.  Further review of the record revealed that Client #2 had a Psychological Assessment dated July 6, 2006. According to the assessment, Client #2 is not competent to make independent decisions concerning his residential and day placements, program plan, medical treatment, or financial affairs. He lacks the cognitive judgment and academic skills to understand the implications of these decisions, and therefore cannot give his informed consent."  Client #2's mother visited the facility on April 18, 2007 at 12:00 PM. At 4:22 PM, the QMRP submitted an informed consent for Client #2's psychotropic medication. The consent had been signed by his legal guardian on the day of the survey (April 18, 2007).  At the time of the survey, the facility failed to provide evidence that Client #2's treatment needs, including the benefits and potential side effects associated with the medications, and the right to refuse treatment, had been explained to him and/or his legal guardian prior to starting the medications.	W 124	W 124 The Agency has developed a database for clients who receive psychotropic medication, restrictive and adaptive equipment and who have BSPs, so that a tickler system can ensure that all consents are reviewed, signed and completed in a timely manner. W 159-1 Continued from page 8

The findings include:

1. The QMRP failed to ensure that the day program had been informed of Client #1's diet order changes as evidenced below.

On April 17, 2007 at 12:17 PM, Client #1 was observed eating his lunch. The client was served Spaghetti with meatballs and carrots. Further observation of the meal revealed that all of the client's food was chopped.

On April 17, 2007 at 5:05 PM all of the clients diet orders were posted on the bulletin board in the kitchen. Client #1's diet order reflected a regular diet with chopped vegetables. Interview with the nurse and review of physician orders verified the posted order.

Interview with the facility's nurse on April 18, 2007 to ascertain information regarding how information regarding changes in the client's diet order is communicated to the day program. The nurse indicated that whenever there is a change in an order, the facility faxes it first to the pharmacy, and then to the Primary Care Physician (PCP). She also indicated that information is usually hand delivered by the direct care staff when transporting the clients to the day program.

An Interview was conducted with the day program staff on April 17, 2007 to ascertain if there had been any changes made to Client #1's diet. According to the day program staff they had not been made aware of any changes.

At the time of the survey, there was no documented evidence that the day program had

W 159-1

W 159-1

In the future the Agency has implemented a system to ensure continuity of care at the day programs.

-All QMRPs and nurses will visit the Day Programs on a monthly basis and document the findings.

-Physicians Order Sheet with the corrected diet order has been given to the Day Program and henceforth all Physicians' order changes will be communicated with the day program within 1 working day

-Day Program Staff have been in serviced regarding the change in the diet order.

accounting that.

**This STANDARD is not met as evidenced by:**  
Based on observations, interview, and record review, the facility failed to ensure needed personal hygiene skills respectively was provided for one of the three clients in the sample. (Client #2).

The findings include:

The facility failed to ensure that a program was developed to train Client #2 to wash his hands appropriately.

Client #2 was observed on the evening of April 17, 2007 at 5:32 PM independently washing his hands. The facility's nurse verbally prompted the client to wash his hands before taking his medication. The client was observed to independently turn on the faucet to wash his hands. He proceeded to put some liquid soap in his hands, afterwards he massed the soap out of his hands before he rubbed his hands together to lather up the soap.

Interview with the Qualified Mental Retardation Professional (QMPP) and review of Client #2's Individual Program Plan (IPP) dated December 17, 2006 revealed the facility failed to provide evidence that the client was being trained in skills necessary for washing his hands.

W 242

A hand washing Program has been developed for client #2.

In the future the Agency will ensure that the IPP will include training in personal and hygienic skills for individuals requiring them.

The Agency has a monthly QA audit system instituted.

Attached – IPP hand washing – this will be presented to the IDT at the 2Q meeting and if approved staff will be trained and program started.
